Staff Induction Program

Zouki™

1. Introduction

Congratulations and welcome to ZOUKI. As you may already be aware, this group has several upmarket cafés within private and public hospital precincts across Australia. We offer a variety of quality products and always maintain friendly service in order to achieve customer satisfaction.

If you are currently reading this document, it is because you have been selected out of many applicants to join us at ZOUKI. We envisage that you have a passion for the hospitality industry and can contribute a friendly service attitude to the team at ZOUKI. Additionally, we believe that you possess the required motivation to further develop your skills and strive for excellence.

We are highly selective about which applicants we employ because each Employee fills a vital role within our business. At ZOUKI, we expect Employees to have excellent communication skills to ensure every experience with our customers is a positive one that reflects our values and brand.

The ZOUKI group induction kit is designed to inform Employees of our high expectations relating to all aspect of our business, including: customer service, personal presentation/hygiene, excellent products, and quality assurance. Please read all the sections of this induction kit carefully as it explains the group's policies and procedures and may answer some of your questions concerning our business and exceptions.

We would like to congratulate you on your successful application and appointment and look forward to a long successful working relationship.

2. Induction Program

The ZOUKI Induction Program has been designed to give you the best possible introduction to your new position. Your Site Manager will walk you through the program and respond to any questions you may have at this time. If you have further questions once commencing work at your allocated site, you can direct them to either your Supervisor, Site Manager, or Franchise Owner. This program summaries your induction training and will help transition you into the ZOUKI workplace system. During your induction and your time with the company, you will be introduced to Standard Operating Procedures (SOPs) relevant to specific areas, including: customer service protocol, coffee making, labelling, slicing, sandwich making, etc.

You will be asked to fill out several forms that are required for either ZOUKI or a Government department. You are required to complete and return all necessary forms prior to the end of your first shift. Most of the information we require is directly related to your roster, pay, and

superannuation. We ask that you keep the paperwork clean, neat, and accurate as this makes the process of scheduling rosters and invoicing run smoothly.

As a new team member of the ZOUKI group, we will walk you through a probation period detailed later in this workbook under section, 'Qualifications for the role and Employment'. During this probation period, your Site Manager will observe your performance and guide you to meet ZOUKI's standards. The results of the trial period will be presented to you in writing and discussed with you. This appraisal is like the one contained in this workbook, entitled, 'Work Review Form', which has been included for you to familiarise yourself with.

3. Position Summary: Expected of All Staff

It is important to remember that Front of House (FOH) staff at ZOUKI are members of a team. This team is responsible for delivering exceptional customer service in order to create an environment where fellow team members and customers feel happy, comfortable, and satisfied.

Ideally, this team should promote and represent the ZOUKI company as being passionate, friendly and customer focused as well as service orientated.

The key objective of your role is:

1. To acknowledge the customer's presence and attend to their needs in a timely and friendly manner.
2. To prepare and offer services such as food and beverages in accordance with ZOUKI procedure, while delivering the highest standards of presentation and quality.
3. To ensure that the presentation of plant, food items, and consumables are clean and that all food stuffs are presented as per ZOUKI product specifications.
4. To be a promoter of the ZOUKI brand, values, services, and products.

ZOUKI staff are to report to the Site Managers, Franchisees, or Assistant Managers and are responsible for the following:

1. Perform duties as requested by the Franchisee, Site Manager and/or Assistance Manager.
2. Familiarise yourself and comply with ZOUKI's business and contact guidelines.
3. Keep all work areas clean and tidy (internal and external) and always maintain cleanliness of equipment in accordance with ZOUKI procedures and standards.
4. Prepare and store all products in accordance with ZOUKI standards and specifications.
5. Answer all customers and fellow staff in a polite and friendly manner.

6. Maintain immaculate personal presentation and hygiene standards.
7. Actively work as part of the ZOUKI team and enjoy your work.

4. Customer Service: The Essentials

✓ Check Procedures	Additional Information
HAND WASHING	• Use JD products as instructed by the company to wash and sanitise hands. • Hands must always be sanitised prior to the commencement of work and after leaving your work station. • Hands must be washed with warm water and dried with the paper towels supplied.
SAY HELLO AND MAKE THEM FEEL WELCOME AND COMFORTABLE	• Smile and greet customers politely. • Be warm and friendly in your greeting. • Never use the phrase, "Who's waiting", instead ask, "Next please".
GET IT – MAKE IT	When making sandwiches: • Determine bread base and margarine. • Add fillings as requested (refer to ZOUKI product specifications). • Suggest dressings and add as requested. • Cut in half using a knife and guard. • Wrap product. • Place in paper bag with napkin. • Determine customer's order, i.e. size (regular/ large), condiments (rice, vegetables, etc). • Serve product in scoops as per instructions. • Cover with lid / bag with napkin. • Up-sell drinks or hot beverages. • Direct clients to where cutlery and additional condiments are kept. • Move towards POS, enter sale, unglove hands, collect money.

LOYALTY CARDS	• Ask the client if they have a loyalty card and stamp/punch. • If there is no loyalty card, explain how it works, provide a new card (stamped and punched).
SUGGESTIONS/UP-SELLING	• Ask whether the customer would like any drinks etc. • Base your suggestion on the product ordered or on the time of day and/or weather (hot weather = cold drink/cold weather = hot drink). • If any special promotion is on you can suggest it (e.g. "We have a new flavoured milk on special today would you like to try it)?
RECEIVING PAYMENT	• When handling money or touching the screen, unglove one hand to do it while keeping the gloved hand behind your back. • Enter the order on the POS system. • Confirm the order with the client before taking payment. • If any change is required, give the full amount at once rather than counting out the money to the customer. • Ensure the order docket/receipt is handed over at same time. • Thank the client.
THANKING THE CLIENT AND GIVING THEM REASONS TO RETURN	• Thank the client in a warm and friendly manner. • Ask them to come back again, e.g. "See you next time".

5. Duties and Responsibilities

✓ Check Procedures	Additional Information

PERSONAL HYGIENE	• At ZOUKI, a pivotal part of our reputation to ensure that our staff's personal presentation and hygiene standards are aligned with our policy standards. • It is important that staff follow the standards put in place as it is crucial in achieving positive representation of the ZOUKI brand.
PRESENTATION GUIDELINES	• DO NOT wear nail polish or false nails. • DO NOT wear stoned or beaded jewellery. • Hair must be tied back. • Do not touch your face or person while working. • Cover all cuts and wounds immediately with a blue or bright coloured band aid. • If you are scheduled to work and you are sick, report to your manager asap. • Maintaining personal hygiene is compulsory and as such, regular bathing and use of deodorant is required. • Men must be clean shaven and any facial hair must be kept neat and tidy.
CARING FOR YOUR UNIFORM	• All ZOUKI TM uniform items are to be cleaned and cared for by individual staff members to keep them in good condition. • Any uniform items that are damaged are to be reported to the Manager, Assistant Manager, Supervisor so that arrangements can be made to order replacements. • Charges will be incurred at the discretion of management concerning replacement garments.
BEHAVIOUR WHEN IN UNIFORM	• Uniforms should not be worn to and from work and need to be covered by another garment when on breaks. • No smoking or drinking alcohol while wearing an exposed uniform. • When in uniform you are expected to act responsibly as you are a representative of ZOUKI.
HEADGEAR	• Headgear and hairnets will be supplied by ZOUKI.

	• These hair nets and branded caps must always be worn during the shift.
TOPS	• All ZOUKI TM uniform tops are purchased from the company. • All tops must be cleaned and ironed for each shift.
BOTTOMS	• Only long black pants are acceptable. • Clothing where the brand name is visible is not acceptable. • All pants must be cleaned and ironed for each shift.
BADGE	• All ZOUKI TM staff will be given a name tag badge. • This badge must be worn and visible during working hours. • All badges must have your first name on them or your preferred name.
APRON	• An apron is supplied by the company. • Aprons are a compulsory uniform item and must be warn at all times. • They must be cleaned and ironed prior to your next allocated shift.
SHOES	• Shoes are supplied by team leaders. • Shoes must be fully enclosed and worn with stockings or socks. • Shoes must be comfortable. • Shoes must be clean and in good repair.
JEWELLERY	• No jewellery is to be worn to work with the exception of wedding bands. However, wedding bands with decorative stones are not to be worn. • No EARRINGS
MAKE UP AND HAIR	• Make up should not be worn except if permission is granted for specific reasons. • Hair must be clean and neatly styled. • Long hair should be neat and tied back.
WORK AREA	• Keep your work area clean from the beginning until the end of your shift.

	• Keep counter displays filled at all times. • Keep counter display tidy and presentable. • Hold gloved hand under the food item held with tongs. This will catch anything that falls and help maintain the appearance of the counter display.
SECONDARY DUTIES	• Assist other team members to achieve exceptional customer experience. • Assist with any customer enquiries regarding products. • Understand and implement online ordering systems introduced and ensure implementation as per business instruction. • Never give out personal or company information.
CLEANLINESS AND SANITATION	• Only use gloved hands and tongs to touch food items. • Always maintain cleanliness throughout your section. • Use JD spray bottles with cleaner and sanitiser solution along with a clean cloth to clean as you go. • Wipe down utensils after use and sanitise. • Use sparkle spray and paper towels to wipe down glass displays and ensure they are streak free. • Keep hand basins and surrounding areas clean.
Slicing	Additional Information
HAND WASHING	• Moisten hands in hand wash basin. • Dispense a shot of hand soap onto hands. • Bring soap to lather and allow approx. 20 seconds of rubbing. • Rinse under running water. • Dry with paper towels. • Dispose of used paper towels in the rubbish bin. • Dispense one shot of evaporative sanitiser onto one hand. • Rub hands together to massage in the evaporative sanitiser. • Allow hands to air dry before starting tasks.
FOLLOW SLICER'S JOB DESCRIPTION	• Follow slicers job description every shift and ensure completion of all tasks within the allocated time frame.

COMMUNICATING WITH THE MANAGER AND HEAD CHEF	• Maintain frequent communication with the manager and cooks throughout the shift to ensure that the daily requirements and preparations for the following shift are completed. • Report any problem to the Head Chef or Manager. • Notify the Head Chef immediately if any items are running low or are out of stock.
FOOD SAFETY, CLEANLINESS, AND SANITATION	• Ensure all SOPs are followed to ensure maximum food safety. • Maintain work areas and equipment and ensure thorough cleanliness and sanitation. • Ensure all procedures are followed to eliminate any possibility of cross contamination.
PREPARING PRODUCTS	• Slice all products as per product specifications. • Prepare quantities in accordance with the production running sheet supplied by Chef/Manager. • Ensure that all preparation meets production quantities requested. • Ensure that all products are labelled, stored, and trayed as per product specifications and labelling systems.
MAINTAINING STANDARD OH&S	• Understand and adhere to Occupational Health and Safety job area checklist protocols. • Ensure all documented SOPs are followed to ensure and maintain the maximum food safety. • Maintain work areas and equipment and ensure thorough cleanliness and sanitation. • Ensure all procedures are followed in order to meet OHandS safe work practices.
MAINTAINING EQUIPMENT	• Report any equipment problems to the Chef/Manager immediately. • Follow slicer cleaning and maintenance procedures. • Monitor the performance of equipment and report any problems/faults that arise to the Chef/Manager.

SECONDARY DUTIES	• Wash, sanitise, and air dry all utensils and containers. • When requested, assist chef in minor tasks. • Ensure hand sanitation and proper use of cleaning chemicals while also ensuring fellow team members follow protocol. • Ensure all equipment, utensils, work areas used are left clean and sanitised for the next procedure.
CLEANLINESS AND SANITATION	• Only use gloved hands and tongs to touch food items. • Always maintain cleanliness throughout your section. • Use JD spray bottles with cleaner and sanitiser solution along with a clean cloth to clean as you go. • Wipe down utensils after use and sanitise. • Empty and re-line rubbish bins. • Keep hand basins and surrounding areas clean.
Cooking	Additional Information
HAND WASHING GUIDELINES	• Hand washing is the most important hygiene requirement. Our hands are constantly used in food preparation and food handling practices which allows an opportunity for cross contamination to occur. • Hand washing stations are conveniently placed in areas of food preparation and must be used. • Hand washing facilities are for the washing of <u>hands only</u>. • The water temperature is automatically mixed, providing water that is warm.
WHEN TO WASH YOUR HANDS	• BEFORE commencing your shift. • BEFORE handling food stuffs. • AFTER eating, drinking, smoking, and toilet breaks. • AFTER entering your work section.
HAND WASHING	• Moisten hands in hand wash basin. • Dispense a shot of hand soap onto hands. • Bring soap to lather and allow approx. 20 seconds of rubbing.

	• Rinse under running water. • Dry with paper towels. • Dispose of used paper towels in the rubbish bin. • Dispense one shot of evaporative sanitiser onto one hand. • Rub hands together to massage in the evaporative sanitiser. • Allow hands to air dry before starting tasks.
FOLLOWING THE CHEF/COOK JOB DESCRIPTION	• Follow the appropriate job description during every shift and ensure tasks are completed within the allocated time frame.
COMMUNICATING WITH THE MANAGER/HEAD CHEF	• Maintain consistent communication with the manager and cooks throughout the shift to ensure that daily requirements and preparations for the following shift are completed. • Report any problems to the Head Chef or Manager. • Notify the Head Chef immediately if any items are running low or are out of stock.
FOOD SAFETY, CLEANLINESS, AND SANITATION	• Ensure all SOPs are followed to ensure maximum food safety. • Maintain work areas and equipment and ensure thorough cleanliness and sanitation. • Ensure all procedures are followed to eliminate any possibility of cross contamination.
PREPARING PRODUCTS	• Prepare all products/recipes as per product specifications. • Prepare quantities in accordance with the production running sheet supplied by Chef/Manager. • Ensure that all preparation meets production quantities requested. • Ensure that all products are labelled, stored, and trayed as per product specifications and labelling systems. • Ensure the monitoring and rotation of stock as instructed by Chef.
MAINTAINING STANDARD OH&S	• Understand and adhere to Occupational Health and Safety job area checklist protocols.

	• Ensure all documented SOPs are followed to ensure and maintain the maximum food safety. • Maintain work areas and equipment and ensure thorough cleanliness and sanitation. • Ensure all procedures are followed in order to meet OH&S safe work practices.
MAINTAINING EQUIPMENT	• Report any equipment problems to the Chef/Manager immediately. • Follow all equipment cleaning and maintenance procedures. • Monitor the performance of equipment and report any problems/faults that arise to the Chef/Manager.
SECONDARY DUTIES	• Wash, sanitise, and air dry all utensils and containers. • When requested, assist chef in minor tasks. • Maintain cleanliness of kitchen/work areas utilised. • Ensure fellow team members are aware of what you are doing and explain if necessary. • Ensure hand sanitation and proper use of cleaning chemicals while also ensuring fellow team members follow protocol. • Ensure all equipment, utensils, work areas used are left clean and sanitised for the next procedure.
CLEANLINESS AND SANITATION	• Only use gloved hands and tongs to touch food items. • Always maintain cleanliness throughout your section. • Use JD spray bottles with cleaner and sanitiser solution along with a clean cloth to clean as you go. • Wipe down utensils after use and sanitise. • Empty and re-line rubbish bins. • Keep hand basins and surrounding areas clean. • Remember that 'clean' means free from visible soiling or dirt, whereas 'sanitise' means free from harmful disease-causing pathogens (bacteria, fungus, and viruses).

THE CLEANING METHOD	• Use JD multi-purpose cleaner 'D2' and a paper towel to remove any visible dirt. • Use JD Alcoser to sanitise: spray and leave, or wipe with clean paper towel to kill harmful bacteria (see JD MDS).
PREVENTING CROSS CONTAMINATION	• Cross contamination occurs when microorganisms are transferred from one surface, food, or utensil to another. • Clean and sanitise all work utensils, benches, and equipment after every task. • Ensure the wiping implement is clean, i.e. paper towel, cloth etc. and that they are not reused for other tasks. • Ensure that hand washing protocols are followed and that hands are washed following each procedure. • All utensils must be washed and sanitised prior to use in different processes or procedures. • Change the water in scoop baths every 30 minutes. • When topping up food stuffs, ensure exposed food items are placed on top of new food items (FIF0). • Always use older stock first.

6. Job Protocol for Food Handlers

1. FOOD HANDLERS' DUTIES AND RESPONSIBILITIES TO THE EMPLOYER

a) Food Handlers' duties and responsibilities involve taking measures to handle food so that it minimises the likelihood of compromising food safety and suitability:

i. Ensure food is cooked or processed correctly.

ii. Ensure that food is kept at correct temperatures.

iii. Ensure that food is adequately protected from cross contamination.

iv. Ensure all food service and storage utensils as well as food contact surfaces are cleaned and sanitised correctly.

v. Ensure food contact surfaces are adequately protected from contamination.

vi. Report to the Site Manager if any machinery and/or equipment is not operating correctly.

b) Food Handlers' must take measures to handle food so that it minimises the likelihood of compromising food safety and suitability in the following circumstances:

i. The Food Handler/Service Staff member must verify and confirm tasks that have been designated to them and ensure that tasks are undertaken correctly.
ii. If the Food Handler has not been adequately trained for the assigned task, they must inform the Site Manager.
iii. If Food Handlers discover or are alerted by fellow staff members that ingredients are likely to render the final product unsafe or unsuitable, it must be reported to the Site Manager, Quality Assurance representative, or persons with the necessary authority to act.

2. HEALTH OF FOOD HANDLERS.

A Food Handler must be aware and responsible concerning their health and how it may impact fellow workers and customers. A Food Handler must inform Management and act on their recommendations if he/she fits into one or more of the following three categories:

a) A Food Handler who has a *symptom* that indicates he/she may be suffering from a food borne disease.
b) A Food Handler who *knows* he/she or a fellow Food Handler is suffering from a food borne disease.
c) A Food Handler who knows he/she or a fellow Food Handler is a *carrier* of a food borne disease.

Note: If the Food Handler is unaware that he/she is carrying a food borne disease they are not obliged to do anything. However, if the Food Handler is aware of an illness or has a reasonable cause for suspicion of a food borne illness, then he/she must report it to the Site Manager. The incident will be entered into the Illness Register as per the HACCP Based Food Safety Program.

If the Food Handler is suffering from symptoms that are common such as influenza, gastroenteritis, and other forms of infection, he/she is required to notify the Site Manager. It is the obligation of the Food Handler to seek prompt medical attention and if necessary, undertake physical and medical examinations until proven fit for work.

2.1 If a Food Handler is diagnosed with any of the infections listed below, he/she must seek immediate medical advice and return to work only if clearance is granted from a medical practitioner.

a) Hepatitis A, B, C, or D.
b) Norwalk disease.

c) Typhoid Fever.
d) Shigellosis.
e) Staphylococcal disease.
f) Streptococcal disease.

2.2 Food Handlers must:

a) Report that he/she is, or may be suffering from the above diseases, or knows that he/she is carrying the disease to his/her Manager. This is so that necessary action may be taken and the information can be recorded.
b) The Food Handler must not engage in any handling of food where there is a reasonable likelihood of food contamination because of his/her illness.
c) The duties in which the Food Handler must not partake in include the following:
    i. He/she must not be in direct contact with the preparation of ready to eat food stuffs.
    ii. He/she must not be in contact with utensils, equipment, or machinery used for the preparation of foodstuffs.

3. HYGIENE PROTOCOLS FOR FOOD HANDLERS

A Food Handler, when engaging in food handling operations, must take all necessary measures to ensure that:

a) His/her person or anything he/she is wearing does not contaminate food or food surfaces.
b) He/she avoids unnecessary contact with exposed food and items sold as, 'Ready to Eat'.
c) He/she avoids unnecessary contact with surfaces likely to meet food.
d) All Food Handlers who are in contact with exposed foodstuffs or surfaces must as a minimum, wear a disposal hair net or hat as supplied by the Employer.
e) Bodily secretions which include saliva, mucus, sweat, and blood are to be classified as food contaminates. To reduce the likelihood of these contaminates becoming a serious issue; the following procedures are to be complied with:
    i. No Food Handler is to consume food or drink over unprotected food or food surfaces (e.g. kitchens, service areas, etc).
    ii. No Food Handler is to sneeze, blow, or cough over unprotected foodstuffs or surfaces likely to come into contact with food.
    iii. No Food Handler is to spit, smoke, use tobacco, or chew gum in areas where there are unprotected foodstuffs or where food is severed.

4. FOOD HANDLERS' HYGIENE REVIEW

A Food Handler must wash his/her hands in accordance with the Food Safety Program.

4.1 A Food Handler must wash his/her hands in the following circumstances:

a) After handling garbage.
b) After performing cleaning duties.
c) After handling or coming into contact with animals.
d) Before working with 'Ready to Eat' foodstuffs.
e) Before handling raw food items, particularly those that will not be cooked.
f) Immediately after using the toilet.
g) Before commencing or recommencing the handling of food.
h) Immediately after smoking, coughing, sneezing, or using a handkerchief/tissue.
i) After eating, drinking or engaging in similar practices.
j) After touching his/her hair, scalp, or body.

4.2 A Food Handler when washing hands must always:

a) Use the washing facilities provided.
b) Thoroughly clean his/her hands using soap and warm running water.
c) Ensure that hands are thoroughly dry following hand washing.
d) Use a warm air hand drier or paper disposable towel before then sanitising.

5. It is the responsibility of the Food Handler to provide efficient and effective services to his/her Employer in accordance with ZOUKI's Policies and Procedures Manual. At no time is there to be any form of substitution of these regulations and standards.

6. The Food Handler must be aware of and abide by ZOUKI's Job Specifications, Food Safety Program standards as well as the Policies and Procedures Manual.

7. The standards regarding personal hygiene in the work place are the responsibility of each individual Employee.

8. The Employee shall be held responsible for any non-compliance of standards/regulations documented in the Job Specification, Policies and Procedures Manual or Food Safety Program.

10. It is the responsibility of each Employee to attend all workshops, training sessions, and meetings.

11. It is the responsibility of each Employee to inform Management of any questions or concerns they may have regarding the standards and regulations within the Company Group.

13. It is the responsibility of each Employee to wear protective clothing as provided by the Employer, i.e. hair nets/hats and disposable hand gloves etc.

Note: At no time is an Employee or a visitor of an Employee allowed to enter the food production area without the correct health protective uniforms.

14. At no time are Employees to allow any outside parties on the premises without prior approval or instruction of Management.

15. At no time is an Employee to wear casual jewellery or artificial nails while at work.

16. It is the responsibility of the Food Handler to familiarise and maintain his/her knowledge of all information regarding the HACCP approved Food Safety Program.

17. It is the responsibility of each Employee to ensure that all labelling is prepared and ordered correctly, prior to the delivery of the food product.

18. It is the responsibility of each Employee to participate fully in any formal performance appraisal program conducted by the Employer. The Employee's performance will be reviewed on an ongoing basis and measured against standards contained in the Food Safety Program and Policies and Procedures Manual.

19. To treat all company property with respect and maintain cleanliness at all times.

CONCLUSION

The Employee acknowledges that if they breach any standards, policies, or procedures outlined in this document, they will be held responsible for any consequential incidents that occur. Additionally, at no stage shall the Employer be held responsible for the Employees lack of professional hygiene standards at their place of employment.

Furthermore, the Employee acknowledges that failure to abide by protocols and procedures (that are outlined in this document, Job Specifications, and the HACCP Food Safety Program) will result in a written warning.
